API Testing

Voice Automation

SUMMARY

Highly skilled Full Stack Developer with 2+ years of experience designing and implementing responsive web portals, robust backends, cross-platform mobile apps, and automated workflow scripts. Expert in Python/Django, PHP, and React, with a strong focus on clean code architectures, relational databases, and secure API integrations.

PROFESSIONAL JOURNEY

- **AI Systems & Flutter Architectures** 2026 - PRESENT
Engineered native cross-platform mobile apps using Flutter. Built automated system testing suites and integrated smart voice assistants (JARVIS) to optimize workflows.
- **Full Stack & React Integration** 2025
Architected single page web applications using React.js and Vite. Designed responsive customer panels and structured offline-first local database architectures.
- **Django & Backend API Development** 2024
Pivoted to Python/Django backends. Programmed secure transaction logging tools, reactive multi-role administrative databases, and automated validation scripts.
- **PHP Web Portal Construction** 2023
Mastered core technologies (HTML5, CSS3, JavaScript, jQuery, and PHP). Developed B2B portals, school administration panels, and inventory management systems.

FEATURED PROJECTS

Shiraz Hotel Management

Role-based Property Management System (PMS) supporting rooms allocation, guest check-ins, billing, and report generation.

PHP

MySQL

AJAX

Technix React Dashboard

Single Page Admin Dashboard built with Vite + React 18, featuring dynamic layouts, design tokens, and modular code.

React

Vite

Bootstrap 5

Singer Enterprise ERP

Reactive multi-role system automating jobsheet generation, fault ticketing logs, and PDF dispatch outputs.

PHP

MySQL

DOMPDF

JARVIS Assistant & Testing

Voice assistant automating OS operations and high-speed API validation suites with assertions.

Python

PyTest
